

BENEFIT COVERAGE POLICY

Title: BCP-45 Preventive Health Services

Effective Date: 04/01/2018

Physicians Health Plan
PHP Insurance Company
PHP Service Company

Important Information - Please Read Before Using This Policy

The following coverage policy applies to health benefit plans administered by PHP and may not be covered by all PHP plans. Please refer to the member's benefit document for specific coverage information. If there is a difference between this general information and the member's benefit document, the member's benefit document will be used to determine coverage. For example, a member's benefit document may contain a specific exclusion related to a topic addressed in a coverage policy.

Coverage determinations for individual requests require consideration of:

- The terms of the applicable benefit document in effect on the date of service.
- Any applicable laws and regulations.
- Any relevant collateral source materials including coverage policies.
- The specific facts of the particular situation.

Contact PHP Customer Service to discuss plan benefits more specifically.

1.0 Policy:

Health Plan covers preventive health services to adults and children, as required by the ACA.

Certain preventive health services require prior approval for coverage.

2.0 Background

The Affordable Care Act (ACA) requires individual and group health plans to cover network preventive health services and immunizations without a member cost-share (e.g., deductibles, coinsurance, and copayments) unless the plan qualifies under the grandfather provision or for an exemption. Coverage for preventive health services other than those mandated by ACA is dependent on benefit plan language.

The preventive health services listed in this policy are based on recommendations from:

- United States Preventive Task Force (USPSTF), grade A or B recommendations.
- Centers for Disease Control and Prevention (CDC).

- Health Resources and Services Administration (HRSA).
- Latest medical research from organizations like the American Medical Association (AMA).
- Pharmacy Benefit Manager.

3.0 Clinical Determination Guidelines:

1. Preventive health services do not incur a member cost share when they are:
 - a. Listed in this policy.
 - b. Done for preventive purposes (not diagnostic).
 - c. Completed by a network provider.
2. Some services MAY require prior approval. See table below.
 - a. Screening versus diagnostic, monitoring or surveillance testing.

A positive result on a preventive screening exam does not alter its classification as a preventive service but does influence how that service is classified when rendered in the future. For example, if a screening colonoscopy performed on an asymptomatic individual without additional risk factors for colorectal cancer (e.g., adenomatous polyps, inflammatory bowel disease) detects colorectal cancer or polyps, the purpose of the procedure remains screening, even if polyps are removed during the preventive screening. However, once a diagnosis of colorectal cancer or additional risk factors for colorectal cancer is identified, future colonoscopies will no longer be considered preventive screening.

3. Reporting of preventive care services.

Preventive health services are reported with diagnosis and procedure codes, which identify the services as preventive and not for treatment of injury or illness (see code chart below). Age, gender or frequency limits are utilized for certain designated services (i.e., wellness exams, vision and hearing screening, administration of Human Papillomavirus [HPV] vaccines, nutritional and genetic counseling). Preventive health services submitted with diagnosis codes that represent treatment of illness or injury are paid as applicable under member's normal medical benefits rather than preventive care coverage.

4.0 Coding:

Prior Approval Legend: Y = All lines of business; N = None required; 1 = HMO/POS; 2 = PPO; 3 = SHS 264; 4 = SHS 1269 Non-Union; 5 = LBWL; 6 = Dart; 7 = SHS 1269 Union.

Preventive Service	CPT/ HCPC	CPT/HCPC/Drug Description	Requires PA	Requires Diagnosis	ICD-10 Code	ICD-10 Description	Adults	Children (newborn to 18 yrs)	Women

	45384	Colonoscopy flexible; diagnostic w/ removal of tumor, polyp, lesion by forceps		X			X		
	45385	Colonoscopy flexible; diagnostic w/ removal of tumor, polyp, lesion by snare		X			X		
	81528	Oncology (colorectal) screening, quantitative real-time target and signal amplification of 10 DNA markers (KRAS mutations, promoter methylation of NDRG4 and BMP3) and fecal hemoglobin, utilizing stool, algorithm report as a positive or negative result (i.e., Cologuard)		X			X		
	82270	Blood occult, by peroxidase activity, feces		X			X		
	G0104	Colorectal cancer screening; flexible sigmoidoscopy					X		
	G0105	Colorectal cancer screening; colonoscopy, high risk					X		
	G0106	Colorectal cancer screening; alternative to G0104, screening sigmoidoscopy, barium enema					X		
	G0120	Colorectal cancer screening; alternative to G0105, screening colonoscopy, barium enema					X		
	G0121	Colorectal cancer screening; colonoscopy on individual not meeting criteria for high risk					X		

Preventive Service	CPT/ HCPC	CPT/HCPC/Drug Description	Requires PA	Requires Diagnosis	ICD-10 Code	ICD-10 Description	Adults	Children (newborn to 18 yrs)	Women
	G0122	Colorectal cancer screening; barium enema					X		
	G0328	Colorectal cancer screening; fecal-occult blood test, immunoassay, 1-3 simultaneous					X		
Bowel Prep		Citrate of Magnesia ClearLax Disposable enema Dulcolax GaviLyte-C GaviLyte-H and Bisacodyl GaviLyte-N Milk of Magnesia					X		
Depression Screening	96127	Brief emotional/ behavioral assessment, with scoring and documentation, per standardized instrument		X	Z13.89	Encounter for screening for other disorder	X	X	
	G0444	Annual depression screening 15 minutes		X			X	X	
Diabetes Screening	82947	Glucose; quantitative, blood (except reagent strip)		X	Z13.1	Encounter for screening for diabetes mellitus	X		
	82948	Glucose; blood, reagent strip		X			X		
	82950	Glucose; post glucose dose (includes glucose)		X			X		
	82951	Glucose; tolerance test 3 specimens		X			X		
	83036	Hemoglobin; glycated (A ₁ C)		X			X		
	0403T	Preventive behavior changes, intensive program of prevention of diabetes using a standardized diabetes prevention program curriculum, provided to individuals in a group setting, minimum 60 minutes, per day					X		

Preventive Service	CPT/HCPC	CPT/HCPC/Drug Description	Requires PA	Requires Diagnosis	ICD-10 Code	ICD-10 Description	Adults	Children (newborn to 18 yrs)	Women
	0488T	Preventive behavior changes, online/ electronic structured intensive program for prevention of diabetes using a standardized diabetes prevention program curriculum, provided to an individual, per 30 days					X		
Immunizations (Vaccines)	90460	Immunization administration through 18 years of age via any route of administration, with counseling by physician or other qualified health care professional; first or only component of each vaccine or toxoid administered					X	X	
	90461	Immunization administration through 18 years of age via any route of administration, with counseling by physician or other qualified health care professional; each additional vaccine or toxoid component administered					X	X	
	90471	Immunization administration (includes percutaneous, intradermal, subcutaneous, or intramuscular injections); 1 vaccine (single or combination vaccine/toxoid)					X	X

		bilateral, during same hospitalization							
	58611	Ligation or transection of fallopian tube(s) when done at the time of cesarean delivery or intra-abdominal surgery (not a separate procedure)							X
	58615	Occlusion of fallopian tube(s) by device (e.g., band, clip, Falope ring) vaginal or suprapubic approach							X
	58670	Laparoscopy, surgical; with fulguration of oviducts (with or without transection)							X
	58671	Laparoscopy, surgical; with occlusion of oviducts by device							X

5.0 Unique Configuration/Prior Approval/Coverage Details:

Preventive health claims require the modifier 33 to be considered payable as a preventive service. However, PHP does not process claims based solely on the presence of modifier 33.

Preventive health services are dependent upon claim submission using preventive diagnosis (when applicable) and procedure codes in order to be identified and covered as preventive health services.

G0438 – Annual wellness visit; includes a personalized prevention plan of service, initial visit covered as a Preventive Service for Metal Plan members.

G0439 – Annual wellness visit, includes a personalized prevention plan of service, subsequent visit covered as a Preventive Service for Metal Plan members.

6.0 Terms & Definitions:

Diagnostic service. Done to monitor, diagnose or treat a health problem. A deductible, copayment or coinsurance may apply. The following are examples of diagnostic services:

- Management of a chronic condition such as diabetes.
- Follow-up tests ordered by a doctor after a preventive screening determined a health problem.

- Follow-up tests ordered by a doctor based on symptoms, such as abdominal pain.

Preventive health service. Screenings, tests, and services performed for symptom-free or disease-free individuals. They may also include immunizations and screening services for individuals who are symptom-free or disease-free and are at increased risk for a particular disease. There is no cost to the member.

Wellness examination. Well-baby, well-child, well-adult (including well-woman) examinations that include:

- An age- and gender-appropriate history.
- Physical examinations.
- Counseling/anticipatory guidance.
- Risk factor reduction interventions.
- The ordering of appropriate immunizations and laboratory/screening procedures.
