

6-Tier Prescription Drug
List, May 2024

Introduction

The Prescription Drug List (PDL) is the list of covered medications for PHP Marketplace Members and Members who have coverage through their employer group. The PDL applies only to prescription medications that a PHP Member picks up at a pharmacy or other outpatient location; it does not include inpatient medications or medications obtained or administered in a Physician's office. Some over-the-counter medications are covered due to federal regulations and the Member's specific pharmacy benefit plan.

The PDL does not define benefit coverage. Benefit coverage is determined by the Member's specific pharmacy benefit plan. This means that there may be medications listed on the PDL that are not covered because it is not a covered benefit under the Member's pharmacy benefit plan.

You may also access PDL information by visiting our website at PHPMichigan.com. For general questions regarding the PDL, call toll-free PHP's Customer Service Department at 1.800.832.9186.

Pharmaceutical Management Procedures

Prescription Drug List Medication Overview

Medications on the PDL fall under different benefit tiers. Which medications are on a tier is based on a review of clinical, economic, and other factors. The PHP Pharmacy & Therapeutics (P&T) Committee, composed of Physicians and Pharmacists, reviews new and existing medications, and provides clinical guidance for formulary development and tier placement. Guidance is based on similarities and differences compared with other medications that treat the same disease or condition. This helps ensure Members have access to a wide range of medications while controlling healthcare costs.

The tier placement of a medication on the PDL may be subject to change. When a medication changes tiers, the Member may be required to pay more or less. These changes may occur without prior notice. Members may visit the PHP website at PHPMichigan.com. Call PHP's Customer Service Department at 1.800.832.9186 or 517.364.8500 for the most up-to-date tier status and co-payment information.

Tier Designations

Prescription medications are categorized within four tiers on the PDL. Each tier is assigned a copayment, which is determined by the Member's pharmacy benefit plan. Providers may refer to the PDL as a guide to select the most appropriate medication with the lowest Member copayment for your patients.

ACA

A select list of prescription and over-the-counter medications are classified as preventive medications based on the Health Care Reform (HCR) Affordable Care Act (ACA) guidelines. These medications are available to Members at zero (\$0) copayment. More information on preventive medications is included in the Member's specific benefit plan.

Tier 1A

Medications on Tier 1A will have the lowest member cost share. Most medications on this tier are adherence generic medications and select brand name medications.

Tier 1B

Tier 1B Medications are generic traditional medications and select generic specialty medications.

Tier 2

Tier 2 medications are preferred branded traditional. A provider may consider a Tier 2 medication if no Tier 1 medication is appropriate to treat the Member's condition. Members will have a higher cost share for Tier 2 medications.

Tier 3

Tier 3 medications are non-preferred traditional medications.

Tier 4

Tier 4 medications are preferred specialty and generic specialty medications.

Tier 5

Tier 5 medications are non-preferred specialty medications. Tier 5 medications will have the highest member cost share.

Specific information about the member's cost share, including copays, deductible and coinsurance amounts, can be found in the member's Certificate of Coverage. For more information, please call PHP's Customer Service Department at 800.832.916 or 517.364.8500.

Medications listed in *lowercase italics* indicate the generic name of the medication. Medications listed in all UPPERCASE indicate a branded, single-source, or authorized generic medication.

Over-the-Counter Medications

For many conditions, an over the counter (OTC) medication may be the most appropriate treatment. OTC medications are defined as medications that do not require a prescription by federal or state law to be dispensed. Specific OTC medications are covered based on the member's specific benefit plan and federal regulations. Therapeutic equivalent and OTC medications may not be covered under the Member's pharmacy benefit, and they may cost less than the Member's out-of-pocket expense for prescription medications. However, if the Patient or Physician requests a therapeutic equivalent product or an OTC product, the patient may be required to pay the entire cost of the product. This is determined by the Member's pharmacy benefit plan.

Generic Medication Policy

Most generic medications are included on the PDL as Tier 1 medications. Members will have the lowest cost share with a Tier 1 medication, so consider prescribing a generic, Tier 1 medication when appropriate. Note that when a brand-name medication becomes available as a generic, that brand-name product may move to a higher tier. Unless the Physician specifies that the medication must be Dispensed As Written (DAW), the pharmacist may substitute the name brand for a lower cost generic equivalent. When generic substitution conflicts with state regulations or restrictions, the dispensing Pharmacist must obtain approval from the prescribing Physician or other health care professional to substitute the generic equivalent.

Self-Administered Injectables

Some Members may have coverage for self-administered injectable medications through their pharmacy benefit plan. You will find these medications included in the body of this document within the appropriate therapeutic categories.

Medications Requiring Notification and Other Pharmacy Programs

Prior Authorization Process

Certain drugs on the formulary require prior authorization, noted in the PDL with PA. These drugs will not be approved for payment until the conditions for approval of the drug are met and the authorization processed by PHP. To initiate a PA review for medical necessity, the Member, Member representative, provider, or provider's designee must complete the Prior Authorization Request Form and fax the completed form to the PHP Pharmacy Department at 517.364.8413. Please visit <https://www.phpmichigan.com/medicalanddrugpolicies> to access prior authorization criteria.

The Prior Authorization Request Form for medications can be found on the website using the link below:

[Medication Prior Authorization Form](#)

Please note: Medications requiring prior authorization, as well as criteria for use, are subject to change. For the most up-to-date information on coverage and the cost of a medication, call customer service at 800.832.9186. Coverage is based on the member's benefit plan.

Exception Process

Medications that are not listed in the prescription drug list (PDL) are excluded from coverage, or medications that are excluded based upon the member's benefit design must be reviewed with the exception process.

Providers may initiate the exception process using the link below:

[Online Medication Exception Process](#)

Online requests will be reviewed within twenty-four hours of receipt. Applicable chart notes can be attached to facilitate review. Notification will go out within 15 days from the date of the request based upon the type and urgency of the request.

Quantity limitations

Quantity limitations are based on FDA-approved dosing recommendations and package size as well as plan benefit limitations. Such medications have a notation "QL," for quantity limit. These quantity limitations define either the maximum supply of medication per copayment or a defined maximum amount that can be covered in a specific time period, as specified by the pharmacy benefit plan. Exceptions to the QL for certain medications are reviewed through the PA process, outlined above.

Step Therapy

All drugs with a step therapy are labeled with ST in the prescription drug list. All requirements related to step therapy for a certain drug are included in the step therapy document listed on the PHP website.

Excluded Medications

Some medications are excluded for certain uses or are only covered for specific diagnoses. In general, PHP benefit plans do not cover medications that are prescribed for conditions outside of those approved by the Federal Drug Administration (FDA).

If you have questions about the PDL or specific coverage requirements, call PHP's Customer Service Department at 800.832.916 or 517.364.8500.

Therapeutic Interchange

1. PHP may call or fax the office indicating that criteria was not met for

the requested medication, however, the member would meet criteria for a different medication(s) with similar therapeutic objectives.

2. PHP would ask the provider if they would be willing to switch to the preferred medication.
3. If the provider agrees, PHP will withdraw the original case with a note stating that the provider is willing to switch to a preferred medication.
4. For preferred medication that requires authorization, a new case will be started for the preferred medication.
5. An approval letter for the preferred medication that the provider agreed to change will be sent to the member and provider.

Keys To Symbols

Symbols used throughout the PDL have these definitions:

ACA = Affordable Care Act Preventative Medications. These are covered at zero copayment (\$0) to the Member.

AR = Age Restriction. Prior notification may be required to be eligible for coverage, depending on the Patient's age.

GENDER = Gender Limits. Prior notification may be required to be eligible for coverage depending on the Patient's Gender.

MB = Medical Benefit. Medication is covered only through the medical benefit.

PA = Prior Authorization required. Approval of this medication is required prior to coverage by PHP.

QL = Quantity limit. How much of a drug you can fill during a specific time period.

SP = Specialty Medication. This medication allows a maximum of a one-month supply per fill.

ST = Step therapy. This medication requires a trial of a preferred agent prior to coverage.

Keys To Dosage Form Definitions:

Dosage Forms used throughout the PDL have these definitions:

CALCIUM CHANNEL BLOCKERS

CALCIUM CHANNEL BLOCKERS

<i>amlodipine besylate tabs 2.5mg, 5mg, 10mg</i>	Tier 1A	
CARDIZEM TABS 30MG, 60MG, 120MG	Tier 3	
CARDIZEM CD CP24 120MG, 180MG, 240MG, 300MG, 360MG	Tier 3	
CARDIZEM LA TB24 120MG, 180MG, 240MG, 300MG, 360MG, 420MG	Tier 3	
<i>diltiazem hcl cp12 60mg, 90mg, 120mg; cp24 120mg, 180mg, 240mg; tabs 30mg, 60mg, 90mg, 120mg; tb24 120mg, 180mg, 240mg, 240mg/24hr, 300mg, 300mg/24hr, 360mg, 420mg</i>	Tier 1B	
<i>diltiazem hcl coated beads cp24 120mg, 180mg, 240mg, 300mg, 360mg</i>	Tier 1B	
<i>diltiazem hcl extended release beads cp24 120mg, 180mg, 240mg, 300mg, 360mg, 420mg</i>	Tier 1B	
<i>felodipine tb24 2.5mg, 5mg, 10mg</i>	Tier 1B	
<i>nicardipine hcl caps 20mg, 30mg</i>	Tier 1B	
<i>nifedipine caps 10mg, 20mg; tb24 30mg, 60mg, 90mg</i>	Tier 1B	
<i>nimodipine caps 30mg</i>	Tier 1B	
<i>nisoldipine tb24 8.5mg, 17mg, 20mg, 25.5mg, 30mg, 34mg, 40mg</i>	Tier 1B	
NORLIQVA SOLN 1MG/ML	Tier 3	PA
NORVASC TABS 2.5MG, 5MG, 10MG	Tier 3	
NYMALIZE SOLN 6MG/ML	Tier 3	PA
PROCARDIA XL TB24 30MG, 60MG, 90MG	Tier 3	
SULAR TB24 8.5MG, 17MG, 34MG	Tier 3	
<i>verapamil hcl cp24 100mg, 120mg, 180mg, 200mg, 240mg, 300mg, 360mg; tbc 120mg, 180mg, 240mg</i>	Tier 1B	
<i>verapamil hcl tabs 40mg, 80mg, 120mg</i>	Tier 1A	
VERAPAMIL HYDROCHLORIDE E CP24 100MG	Tier 3	
VERELAN CP24 120MG, 180MG, 240MG, 360MG	Tier 3	
VERELAN PM CP24 100MG, 200MG, 300MG	Tier 3	

CARDIOTONICS

CARDIAC GLYCOSIDES

<i>digoxin soln .05mg/ml; tabs 62.5mcg, 125mcg, 250mcg</i>	Tier 1B	
<i>digoxin soln .25mg/ml</i>	MB	
LANOXIN SOLN .25MG/ML	MB	PA
LANOXIN TABS 62.5MCG, 125MCG, 250MCG	Tier 3	

INOTROPES

<i>milrinone lactate soln 10mg/10ml, 20mg/20ml, 50mg/50ml</i>	MB	
<i>milrinone lactate in dextrose 5% iv soln 20 mg/100ml</i>	MB	

Drug Name	Drug Tier	Requirements/Limits
<i>milrinone lactate in dextrose 5% iv soln 40 mg/200ml</i>	MB	
CARDIOVASCULAR AGENTS - MISC.		
CARDIAC MYOSIN INHIBITORS		
CAMZYOS CAPS 2.5MG, 5MG, 10MG, 15MG	Tier 4	SP, PA
CARDIOVASCULAR AGENTS MISC. - COMBINATIONS		
<i>amlodipine besylate-atorvastatin calcium tab 2.5-10 mg</i>	Tier 1B	QL
<i>amlodipine besylate-atorvastatin calcium tab 2.5-20 mg</i>	Tier 1B	QL
<i>amlodipine besylate-atorvastatin calcium tab 2.5-40 mg</i>	Tier 1B	QL
<i>amlodipine besylate-atorvastatin calcium tab 5-10 mg</i>	Tier 1B	QL
<i>amlodipine besylate-atorvastatin calcium tab 5-20 mg</i>	Tier 1B	QL
<i>amlodipine besylate-atorvastatin calcium tab 5-40 mg</i>	Tier 1B	QL
<i>amlodipine besylate-atorvastatin calcium tab 5-80 mg</i>	Tier 1B	QL
