

Auto Authorization is COMING SOON!

Physicians Health Plan (PHP) is excited to announce that we are implementing auto authorization for commercial members, effective June 6, 2022. Auto authorization will allow you to:

- » Submit authorization requests electronically
- » Get immediate response for the authorization status
- » Find out if a medical service requires prior authorization – Coming Soon

PHP invites you to attend a virtual training session outlining how to use the authorization portal.

Who Should Attend? Those in your office who request or manage the prior authorization processes.
