

# The doctor will see you now

Your new telehealth benefit gives you access to a doctor online 24/7/365.

PHP is partnering with American Well (Amwell) to provide telehealth services with board-certified doctors – no appointment needed!

You can see a doctor anywhere - from home, work, or while you're on vacation for:

- Allergies
- Sinus infection
- Migraines
- Bronchitis
- Stomach flu
- Pneumonia
- Pink eye
- Vertigo
- Flu
- Gout
- UTI
- Rash
- And many other conditions

Connect with the doctor of your choice by either:

- Logging onto [PHP.amwell.com](http://PHP.amwell.com)
- Calling 844.SEE.DOCS, or
- Downloading the Amwell mobile app

When asked, use **Service Key PHP**.

Once you've registered, you'll enter your payment information.

When prompted, enter **Coupon Code 0020PHP** to get your PHP discount.

After you provide a credit card number, you will be able to see available doctors' photos and profiles and can choose one based on your preferences.

Services provided are subject to your coinsurance, copay, and deductibles (depending on your plan), just like an office visit service.

Your online doctor can prescribe prescription drugs, as needed. They may also refer you to other providers for care if they are unable to treat you.

For more information about Amwell and PHP's telehealth benefit, call Customer Service at 517.364.8500 or 800.832.9186, Monday through Friday, 8:30 a.m. to 5:30 p.m.
